Tampa, Florida

[linkedin.com/in/tonytorres1967](https://www.linkedin.com/in/tonytorres1967)

STRENGTHS

- Strong implementation scalability experience
- High-volume deployment leadership
- Forecasting and operational visibility background
- ARR recognition growth alignment
- Cross-functional execution leadership
- Customer onboarding and deployment strategy experience
- Operational process architecture expertise

WEAKNESSES

- Limited direct healthcare SaaS background
- More operationally focused than product-focused
- Limited exposure to healthcare provider environments

OPPORTUNITIES

- LeanTaaS requires operational implementation leadership
- Strong alignment with implementation scaling challenges
- Experience building operational structures fits organizational growth needs
- Forecasting and escalation management experience aligns closely with role expectations

THREATS

- Competition from candidates with healthcare SaaS implementation backgrounds
- Competitors with direct hospital operations exposure
- Potential concern around healthcare industry learning curve

POSITIONING STRATEGY

Tony should consistently be positioned as:

An implementation operations leader experienced building scalable deployment environments that improve forecasting visibility, strengthen customer onboarding execution, and support enterprise SaaS growth through operational discipline and cross-functional coordination.
